To Whom It May Concern:

I want to thank everyone involved with My Very Own Blanket. Today we received 100 of your blankets. They are so beautiful and the individualized notes are very special. The blankets will be going to abused and neglected children in Montgomery County.

When many of these children are removed from their homes they are only able to take a small plastic bag with a few items. Even the older teenagers ask to receive a blanket of their own. It is very special for a child to know that someone is thinking about him/her and wants them to have something special. This small gesture goes a long way in helping to mitigate some of trauma experienced by these children.

Thank you again.

Sincerely,

Jane P. Novick, Esq.
CASA Program Manager
